1 Bayesian Networks

1.1 Data version 1.x

1.1.1 Evaluation

Table 1: "Accuracies for various models"

model name	missing data present	records count	accuracy
BN00	0	93120	0.73
BN00	1	217148	0.77
BN01	1	217148	0.78
BN01	0	93120	0.74
BN02	0	93120	0.74
BN03	1	217148	0.78

1.1.2 BN Models - Description

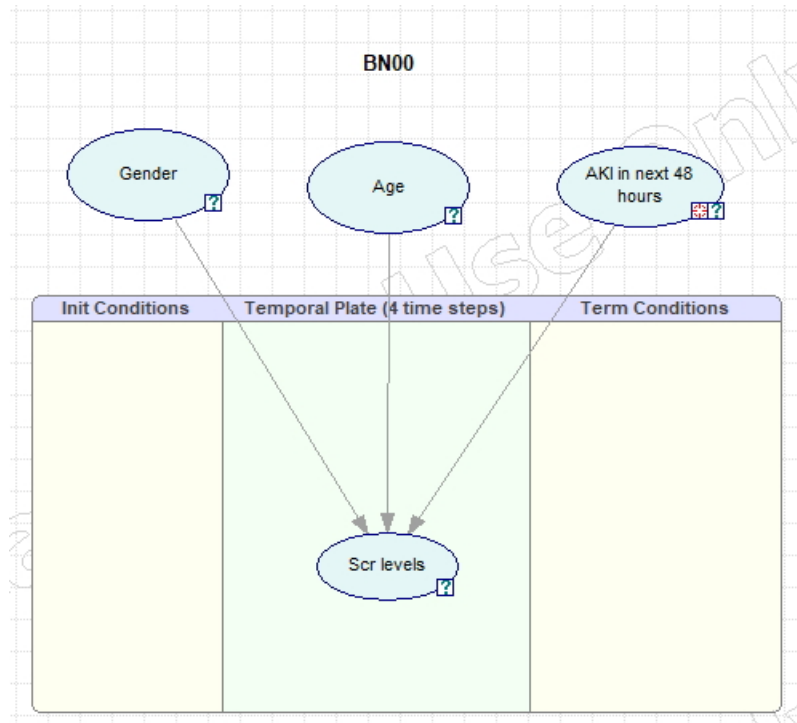

Figure 1: Model BN00 - 4 time steps

Model BN00 - 4 time periods SCr value at time t doesn't depend on previous SCr values

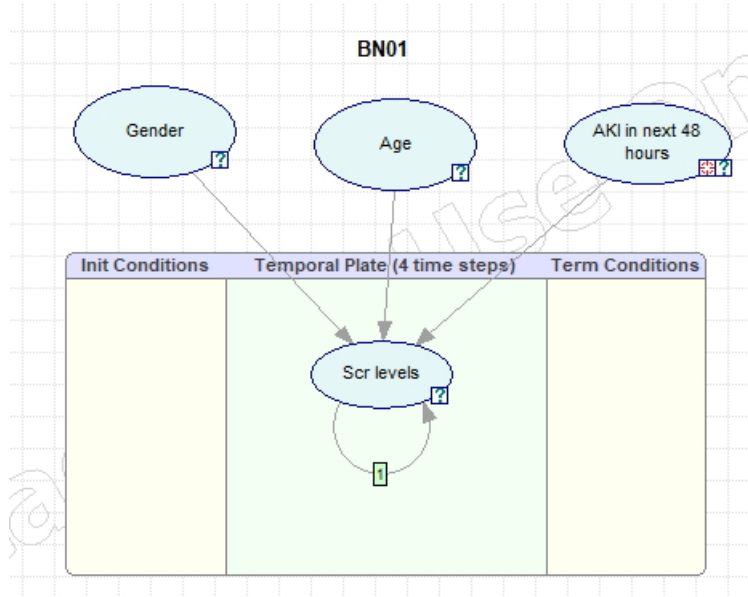

Figure 2: Model BN01 - 4 time steps, SCr value at time t depends on value at the time $t - 1$

Model BN01 - 4 time steps, SCr value at time t depends on value at time $t - 1$

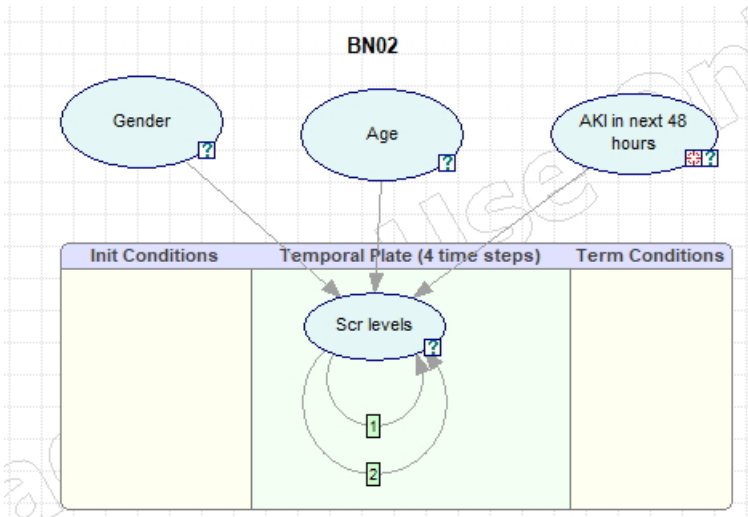

Figure 3: Model BN02 - 4 time steps, SCr value at time t depends on value at the time $t - 1$, and $t - 2$

Model BN02 - 4 time steps, SCr value at time t depends on value at time $t - 1$, and $t - 2$

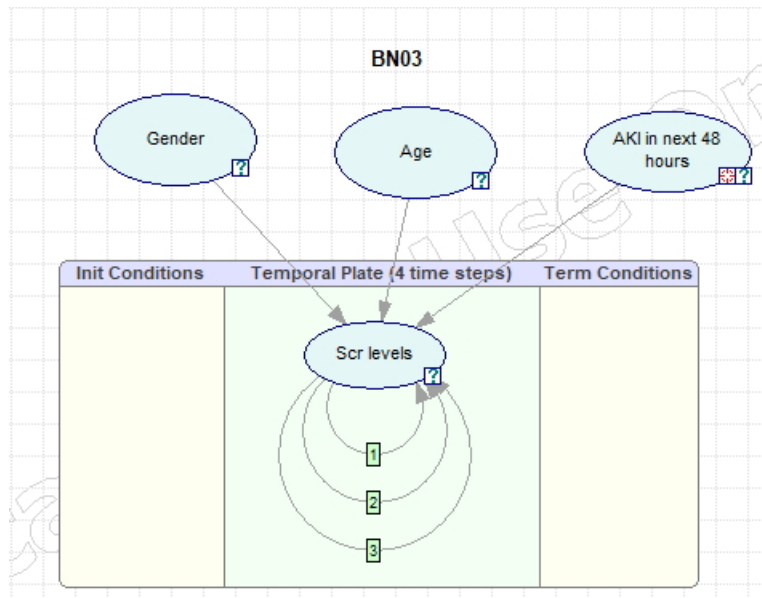

Figure 4: Model BN02 - 4 time steps, SCr value at time t depends on value at time $t - 1$, $t - 2$, and $t - 3$

Model BN02 - 4 time steps, SCr value at time t depends on value at time $t - 1$, $t - 2$, and $t - 3$
